

Week in Review and Lookahead

Friday, January 28, 2022

This week, Capital Transformation made progress on our ongoing projects to improve the Green, Red, and Orange Lines. We also released our monthly report documenting the progress we've made on the **Green Line Train Protection System (GLTPS)**, an **important safety project which has been accelerated** so that this new system should be activated by the end of 2023.

Lechmere Viaduct Rehabilitation

Lechmere Viaduct Rehabilitation Project: Strengthen and preserve the 110-year-old viaduct to sustain heavier loads & increased capacity

- ✓ **This Week** | Continued vehicle testing along the Viaduct, as well as Science Park Station platform modifications and improvements. The team prepared the site for potential heavy snowfall this weekend
- **Lookahead** | Process change order work for Science Park platforms, emergency stairway access structure, and Overhead Catenary System (OCS) mid-point anchor

*Schedule subject to change with weather conditions and in accordance with public health directives
Project percentages represent the value of the installed work
